TOTAL MULO & Natural

The world's first pourable mozzarella. Crafted from plant milk, loved by pizzaiolos.

VEGAN • LACTOSE FREE • PALM OIL FREE  
SOY FREE • GLUTEN FREE • KOSHER

Crafted from cultured plant milk.

Professional pizzaiolo approved.

Melts, bubbles & browns beautifully.

Why Pourable? Simply put, because that is what it takes to create a plant milk mozzarella, worthy of the finest pizza.

Plant milks naturally don't melt in the exact same way as say a cow or a buffalo mozzarella. In order to make the best pizza cheese on (and for) the planet, Miyoko's knew they needed to do something radically different to win over discerning flexitarian foodie and pizzaiolos. So they cut straight to the melt, and flipped conventional thinking on its head. Miyoko's stripped it down to the very minimum, creating a liquid with cultured plant milk as the hero, and using the heat of the oven to activate the starches and proteins, not a processing facility like others.

2022 Fast Company Magazine Honorable Mention for foods to change the world

2022 Expo West winner for Best New Product for a Plant Based Lifestyle

2023 FABI Award Winner

Goes on Liquid.

Sets in the oven.
